**HOSPITALS / AMBULANCES**

**DISCLAIMER:** The U.S. Consulate General Hyderabad, India assumes no responsibility or liability for the professional ability or reputation of, or the quality of services provided by, the medical professionals, medical facilities or ambulance services whose names appear on the following lists. Inclusion on this list is in no way an endorsement by the Department of State or the U.S. Consulate. Names are listed alphabetically, and the order in which they appear has no other significance. The information in the list on professional credentials and areas of expertise are provided directly by the medical professional, medical facility or ambulance service; the Consulate is not in a position to vouch for such information. You may receive additional information about the individuals and facilities on the list by contacting local medical boards and associations (or its equivalent) or local licensing authorities.

In India the central government of India's Medical Council of India and state government authorities form the overarching statutory body that issue licenses to doctors and hospitals to practice medicine in India.

Please find attached below a list of doctors and hospitals in the states of Telangana, Andhra Pradesh and Odisha. Additional resources include the United States Centers for Disease Control and Prevention and the U.S. Department of State – Bureau of Consular Affairs travel web site.

The quality of medical care in India varies considerably. Medical care in the major population centers approaches and occasionally meets Western standards, but adequate medical care is usually very limited or unavailable in rural areas. The medical facilities and health information section of the India – Country specific information page on the State Department travel web site further provides detailed notes about health in India.
